Flash Drives The Ideal Promotional Gift

Flash drives make an impressive & practical corporate Gift while promoting your brand at the same time.

We committed to be your most reliable source of USB Flash Drives in the Middle East.

We specialize in importing quality USB flash drives for promotional purposes. Our USB flash drives are sourced from reputable factories using quality components such as Samsung or Toshiba and carry a warranty against defect. We pride ourselves on high standard levels and after sales services to ensure you peace of mind when dealing with us. Our in stock products help us for fast delivery.

If you can't find your favorite USB in this catalogue or you need to customise a USB we can source it for you.

Reasons why you choose us as your USB flash source.

- * We import original chips separately and after testing & quality checking, We fix them in USB shells.
- * We never import duplicate or upgrade chips and we offer flashes with one year warranty.
- * Fast delivery from ready stock.
- * Big variety and range of products to select.
- * Competetive prices with higher quality.
- * Mock Ups and E-samples:

We have our own inhouse design facilities so we can provide you with Mock-Ups or E-virtual sample of exactly how your printed USB flash drives will look after final production. We offer our USB flash drives with latest technics in printing options: Such as

- * Full color UV printing
- * Screen printing
- * Laser engraving
- * Laser marking
- * Full color digital printing & Epoxy.

Warning

You should be aware of this before you buy any USB

What are upgrade chips?

Unfortunately some manufacturers using a lower capacity memory and selling as a higher capacity memory.

How they do it

1. They use a software to upgrade 1 GB to 4 GB. When use the chip in your computer it shows 4 GB but can't accept files more than 1 GB because the real capacity is 1 GB.
2. They use 4 pieces of 1GB chips instead of one piece of 4 GB capacity. When you save a file, more than 1 GB, it will show an error and if you save a files less than 1 GB it will be saved but when you need to re open the file, as it is not clear in which one of the chips is saved, again it will show an error.

We never use upgrade chips | We use only original chips
